In celebration of the twentieth anniversary of the Association for the Rhetoric of Science and Technology (ARST), this day-long preconference seeks to unite multiple generations of rhetoric of science and technology scholars in a conversation about the invention potential of the rhetoric of science, technology, and medicine. Position papers that take stock of the existing trajectories and future possibilities of scholarship in the rhetoric of science, technology, and medicine will be discussed at the preconference and will subsequently appear in a special forum of POROI: An Interdisciplinary Journal of Rhetorical Analysis and Invention.

For more information, contact Dr. Lisa Keranen, ARST First Vice President at lisa.keranen@ucdenver.edu. Visit ARST on the web at: www.arstonline.org; or visit us on facebook at: https://www.facebook.com/pages/Association-for-the-Rhetoric-of-Science-and-Technology/179158745489275.
